

Special Purchase Terms & Conditions

Where a customer has specified any quality related special conditions over and above those detailed in the Standard Conditions of Purchase then these will be referenced directly on the Purchase Order.

Additionally, the following Special Conditions apply (unless otherwise stated on purchase order)

- All special processes must be performed by qualified personnel.
- Suppliers must operate an ISO9001/AS9100 QMS, certified by an accredited organisation.
- Suppliers providing special processing must maintain a system for validating processes.
- Customer directed sources must operate in accordance with approved specifications and standards as dictated and controlled by the customer in question.
- Suppliers initially approved for use via Certification (ISO, AS9100, ISO 17025, AS9120, etc.) must notify the customer of any changes to that certification.
- The supplier shall maintain the proper identification and revision status of specifications, drawings, process requirements, inspection/verification instructions and other relevant technical data.
- Scott Cables reserves the right to approve or specify any designs, tests, inspection plans, verifications, use of statistical techniques for product acceptance, and any applicable critical items including key characteristics.
- Scott Cables reserves the right to designate requirements for test specimens for design approval, inspection/verification, investigation or auditing.
- The supplier is required to:
 - Notify Scott Cables of nonconforming product.
 - Obtain Scott Cables approval for nonconforming product disposition.
 - Notify Scott Cables of changes in product and/or process, changes of suppliers, and changes of manufacturing facility locations.
 - Flow down to the supply chain the applicable requirements including all Scott Cables (and their customer) requirements.
- The supplier is required to supply product that has a remaining shelf life of at least 75% of original life as of the date of shipment.
- The supplier is required to retain all records associated with the purchase order for 10 years or as required by contract. Scott Cables must be consulted before any records are destroyed.
- Suppliers must provide right of access by Scott Cables, their customers and regulatory authorities to the applicable areas of all facilities, at any level of the supply chain, involved in the order and to all applicable records.
- All suppliers providing Calibration Services must be Certified ISO17025 (or equivalent). All Calibration Certificates must identify standards used and must be traceable to NIST (National Institute of Standards Technology).
- Counterfeit Product: All product provided shall consist of new materials and authentic products only. The customer must be contacted in the event that supplier becomes aware of counterfeit product.
- The supplier will ensure that all persons performing work for the customer are aware of their contribution to product or service conformity, product safety and the importance of ethical behaviour.
