

Company REACH (Registration, Evaluation,  
Authorization and Restriction of Chemicals)  
Compliance Statement

Scott Cables Ltd is committed to fully understanding its responsibilities and obligations under the UK REACH regulation (currently invoking European Regulation (EU) No. 1907/2006 and subsequent amendments) and to ensure its compliance.

As a manufacturing facility, performing assembly, inspection and testing, using purchased components, Scott Cables Ltd will seek to ensure the requirements of the UK REACH regulation are flowed down across its global supply chain.

Scott Cables' suppliers are requested to provide general statements of REACH compliance for all the products they provide. This becomes the basis upon which Scott Cables will make its own general statement of REACH compliance.

When Scott Cables' customers require specific evidence of REACH compliance for their products, Scott Cables will then seek to gather component part information from its supply chain, identifying any that contain SVHC (Substances of Very High Concern). Based upon this information, Scott Cables will then provide customers, in accordance with contractual agreements, assembled product REACH statements.

Scott Cables Ltd consider that this policy and strategy is appropriate for the nature of the work it performs and products it supplies. Scott Cables management will take necessary steps to ensure all applicable staff are aware of this policy, strategy and the steps required.

A handwritten signature in blue ink, appearing to read 'G Scott'.
